

## Factsheet

### What we do.

DORUCON - DR. RUPP CONSULTING GmbH advises companies throughout Germany and Europe, from start-ups and SMEs to large enterprises, on the realisation of their innovation projects and offers support in the promotion and financing of growth. The support includes a full service that covers the planning, application and processing of grants and financing. The offer thus includes not only assistance with innovation promotion, but also with investment promotion and financing.

### Our expertise.

DORUCON has more than 10 years of experience in technology and innovation funding at state, federal and EU level. Supported funding programmes include the Central Innovation Programme for SMEs (ZIM), KMU-innovativ, the research allowance, the EIC Accelerator, GRW funding and go-innovativ (go-inno).

### Quality is important to us.

DORUCON is authorised by the Federal Ministry of Economics to issue consultancy vouchers of up to 27,500 euros for the go-inno funding programme. In addition, DORUCON is certified by TÜV Süd according to ISO 9001:2015 and is a member of the Offensive Mittelstand and the Bundesverband mittelständische Wirtschaft (BVMW).

### The way to DORUCON.

The company was founded in 2011 by Dr Jörg Rupp with the aim of providing sustainable support to companies in realignment and innovation projects. Dr Rupp, who holds a doctorate in engineering and business administration, previously worked for many years as a national and international executive in medium-sized companies, corporate groups and start-ups. The company now employs around 30 people at its locations in St. Ingbert, Berlin and Paris.
